## Roger Matura Take On The Giants

### Little Acts of Rebellion

On his latest collection of deeply personal songs, Roger Matura has once again re-invented himself - this time through the use of loops and samples.

Despite the new production approach, Matura's songs still deal with his own past and perishability, constituting little acts of rebellion against the dying of the light. *Take on the Giants* has accordingly turned into an epic cycle filled to the brim with wondrous musical short stories.

Fans of Matura's earlier work won't be disappointed: Never has he sounded more like himself than here.

### Tracklist

|                                               |      |
